LATE APPLICATIONS WILL NOT BE FORWARDED TO THE REVIEW PANEL

Pursuant to the *Child and Family Services Grant-Making Amendment Act of 2008*, D.C. Law 17-199, effective July 18, 2008 (D.C. Official Code § 4-1303.03(a-1)), the District of Columbia Child and Family Services Agency (“CFSA”) invites qualified applicants to submit applications for grant funding to develop and implement an evidence-based home visiting program model designed to work with overburdened families who are at-risk for adverse childhood experiences, including child maltreatment.

The proposed home visiting model will target families who may have histories of trauma, intimate partner violence, and mental health and/or substance abuse issues. Services will begin prenatally or right after the birth of a baby and are offered voluntarily, intensively and over the long-term (3 to 5 years after the birth of the baby).

Funds will support the District’s current array of prevention services in Wards 5, 6, 7 and 8 – the Wards with the highest incidence of substantiated child abuse and neglect in the District. The program shall serve to prevent the entry of families into CFSA through the provision of intensive long-term home-based and community-based services. CFSA will fund evidence-based approaches, including National Healthy Start and Healthy Families America, which provide access to a range of services that address the medical, behavioral and educational needs of the individual.

Services will be utilized by non-CFSA involved families residing in the target areas. Funds will support the cost of case management and supportive services for up to one year. During the first year of the program, a minimum of 75 to 125 families will be enrolled for services.

Selection and notification of grant awards is scheduled to occur no later than **October 1, 2012**. Up to two (2) grants will be awarded. Grants will range from \$75,000 to \$145,000 per award. Anticipated total funding available will be up to \$145,000 in the first year. Applicants must demonstrate the capacity to have the project fully functioning within forty-five (45) days following notification of the grant award.

FY 2013 Home Visitation Project

SECTION I: GENERAL INFORMATION

Background and Need

CFSA is charged with promoting the safety, permanence and well-being of the District of Columbia's abused or neglected children and their families. We meet our mission by employing high quality social workers that provide assessment, case management and other support services, as well as contracting with a network of private providers and community-based services to provide placement, case management and other supports. Over the last several years, CFSA has substantially improved its performance in all areas. We have increased our focus on permanence for children. We have institutionalized national best practices in areas of Family Team Meetings and Structured Decision Making, and have a nationally certified State Automated Child Welfare Information Systems (SACWIS). Yet, there is still much more to be done for the District's most vulnerable children and their families.

As of May 31, 2012, CFSA was serving 1687 children in foster care and 1693 children in their homes. The responsibility for children in foster care is shared between CFSA and its network of contracted private agencies. Compared to other jurisdictions, the District of Columbia has one of the highest percentages of children living in poverty (30% compared to 19% nationally)¹ and has a high proportion of children in foster care. According to US Census data, 1.7% of all children and youth in the District are in the foster care system.² Children in the District's foster care population are about equal in gender distribution, older than in most jurisdictions, and are over-represented (90%) by the African American population. Over 50% of the foster care population originates from city wards with the lowest income in the District. CFSA-involved children in general, are at higher risk for poor educational outcomes, chronic health issues, early parenthood, long-term dependence on public assistance, increased rates of incarceration, homelessness, and unemployment.³

At the end of May 2012, children age 3 and under made up about 14% of the total foster care population (n=242), with children age 1 and under comprising 37% of the 0-3 population. Children between the ages of zero and three make up the third largest age group in foster care, behind youth ages 16-18 and 19-21.

http://nccp.org/profiles/state_profile.php?state=DC&id=7

² US Census: American Community Survey (2008), District of Columbia population 0-19 = 134,049; DC Foster Care Population as of December 31, 2008 = 2,264 (1.7%).

³ Courtney, M.E., Piliavin, I., Grogan-Kaylor, A., Nesmith, A. (2001). Foster youth transitions to adulthood: a longitudinal view of youth leaving care. *Child Welfare*, 80(6), 685-717.

The Zero to Three Policy Center cites the following for children in foster care (2009):

- Children between birth and age 3 have the highest rates of victimization.⁴
- Once they have been removed from their homes and placed in foster care, infants and toddlers are more likely than older children to be abused and neglected and to stay in foster care longer.⁵
- Each day of visitation with their parents triples the odds a baby in foster care will reach permanency within a one-year time period. But each time an infant or toddler experiences a change in placement, their odds of reaching permanency decrease by 32%.⁶

CFSA's approach to service delivery is to strengthen those services and operations that are already in place, to identify additional service and resource requirements, and to develop and implement strategies to better meet the needs of the children and families who enter into, or who are at risk of entering the District's child welfare system. Many families who come to the attention of CFSA need help with parenting. In many of the communities in which these families live, positive parenting role models are scarce. Youth and families can benefit greatly from positive parenting role models, but many of the communities in which these families live need additional resources and services. In CFSA's *2005 Needs Assessment*, social workers identified poor parent/child relationships as a significant barrier to maintaining a safe, stable and nurturing environment. Although parents did not indicate the need for "parenting classes" in the traditional sense, many felt that they needed help with parenting. The need for parenting support was echoed by the 2006 Child Abuse and Neglect Prevention Assessment Stakeholder Group.⁷ In their collective assessment of the prevention and early intervention child welfare service array in the District of Columbia, participants identified parent education as lacking, and the current capacity of home visitation programs insufficient to meet the demand for services.

CFSA will fund an evidence-based model that partners with families to ensure children are healthy, safe and ready for school through home visitation and linkages with community resources. Services will be expanded to include referrals of non-CFSA involved families⁸ who are expectant parents or mothers who suffer from post-partum

depression (up to 3 months post-partum). Families may also receive services up to the child's fifth (5th) birthday (pending availability of continued funding). Families with children ages 0-2 years old will receive follow-up nursing assessments, referrals, home-visits and monitoring and support services from a Nurse Case Manager/Family Support Worker under an evidence-based model. Families with children ages 2-5 years old will receive referrals, home-visits, and monitoring and supportive services from a Family Support Worker under an evidence-based model.

The lead Applicant will be responsible for identifying how the components shall be integrated, including overall program funding sources.

Successful Applicants shall demonstrate experience with the target population, including parent education or training designed to strengthen and support families and communities, as well as an understanding of child abuse and neglect prevention.

Successful Applicants shall also provide services in accordance with all existing federal and District of Columbia laws, rules, and regulations, and consistent with policies, procedures and standards promulgated by the Child and Family Services Agency.

Grantees must provide at least 10% of the total approved cost of the project for the first through third years of the project period and 20% of the total approved cost of the project in the fourth and fifth years of the project period. The total approved cost of the project is

the sum of the CFSA share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions. No more than 50% of the non-federal share may be in-kind.

Grantees will be held accountable for commitments of non-Federal resources even if over the amount of the required match. Failure to provide the amount will result in disallowance of grant dollars. Cost-sharing will not be used as a preference and/or evaluation criterion in the review of applications. Grant funds should not supplant other State or local funds currently dedicated to these services. Further, Applicants should present a vision for sustaining the proposed project after the period of CFSA funding has ended.

SECTION VII: PROGRAM SCOPE

Program Description

The D.C. Child and Family Services Agency (CFSA) investigates reports of child abuse and neglect, and provide child protection. Services include foster care, adoption, and supportive community-based services to enhance the safety, permanence, and well-being of abused, neglected, and at-risk children and their families in the District of Columbia. We seek to achieve the highest quality of community-based services, to increase the number of families that are strengthened by community-based preventive and support services, and to expand the network of resources providing services to at-risk children and their families.

As of March 31, 2012, CFSA was serving 1515 children (546 families) in their homes. In an attempt to reduce the number of families becoming involved with CFSA, the Agency envisions the development of a network of prevention programs designed to support families who may be struggling with multiple risk factors associated with child abuse and neglect. Offering families immediate alternatives and easy access to services may, over time, contribute to a reduction in the incidence of child abuse and neglect, particularly among populations that traditionally have not been able to access services to meet their needs.

Grant funding awarded under this project may not be used to supplant existing programs. Applicants must demonstrate how grant funding supports the expansion or enhancement of existing services, or the development of distinct new programs, and meets an identified need in the target population. If the proposed model is one component of a larger program, the Applicant shall clearly describe their overall program budget and demonstrate alternative funding sources.

For the purpose of this initiative, the families receiving services will be monitored to determine whether the services provided have an impact on the incidence of child maltreatment, and parent and child outcomes. Preference will be given to those approaches that demonstrate on-going support for families after initial services have ended. Our hope is that the parents and families who utilize these services will gain the skills and supports they need to maintain safe and stable environments for themselves and their children.

Program Objectives

During the grant period, CFSA and the Grantees shall jointly engage in a programmatic evaluation to determine the impact of services under the home visitation project. Specifically, the evaluation will identify and track the progress of program participants and assess whether the interventions support the stability of the most at-risk families, and thus, whether they support 1) the prevention of child abuse and neglect, and 2) improvement in family strengthening and functioning.

For each family screened and assessed, the following information will be captured:

- ❖ Demographics: including age, race/ethnicity, educational level, income level, details of hospital where child was born, and DC Ward residence,
- ❖ Risk assessment results, to be clear on the level of risk upon entering the program,
- ❖ Families enrolled and discharged per reporting period,
- ❖ Referrals made and their result,
- ❖ The mother and child's linkage to a primary care medical home,
- ❖ The child's linkage to health insurance,
- ❖ Immunizations due and completed by the child,
- ❖ Birth outcome,
- ❖ Case plan goals and ability to accomplish in three month time frame.

The information will be tracked and reported as indicated, with a year-end evaluation summarizing the results. CFSA and the Grantees shall jointly identify indicators to measure desired long-term outcomes. Such outcomes may include:

1. Absence of child maltreatment/involvement with CFSA post-intervention.
2. Increase in child and parental protective factors post-intervention.
3. Satisfaction of parents with the program.
4. Enhanced ability of parents to self-advocate and problem solve, including:
 - Increased communication and positive family interaction.
 - Expanded network of social support.
 - Increase in developmentally and age appropriate parenting skills.

Applicant Responsibilities/Scope of Work

In its proposal, the Applicant must demonstrate the ability to provide services tailored to the target populations under the grant. In meeting those ends, the Applicant must meet, at a minimum, the following requirements:

1. The Applicant's program must be designed to meet the capacity requirements as outlined in the Program Scope.
2. Nothing in this RFA should conflict with any existing agreement between Applicant and the District of Columbia Child and Family Services Agency. Further, nothing in this RFA relieves Applicant of any agreement or obligations with CFSA (see SECTION V: ELIGIBILITY INFORMATION).

The successful Applicant must also:

1. Complete three (3) hours of orientation provided by CFSA, which includes.
 - Background on the population of children served by CFSA.
 - Elements of child abuse and neglect.
 - The laws surrounding confidentiality and privacy.
 - Written materials summarizing the training.
2. Comply with the administrative, reporting and evaluation requirements of a grant agreement.
3. Abide by the confidentiality laws of the District, and not discuss the fact that the child is involved with the system with anyone other than the child's social worker or CFSA staff.
4. Report suspected child abuse and neglect to 202-671-SAFE (CFSA's Hotline).
5. Show and maintain proof of insurance that meets the requirements set forth herein.
6. Comply with 29 DCMR, Chapter 82.

The provisions of this Grant Agreement shall be governed and construed under the laws and regulations of the District of Columbia. The Grantee agrees to comply with the confidentiality statutes in the D. C. Official Code, as well as other applicable child protection laws including, but not limited to, mandated reporter statutes.

Staff Requirements

The Applicant shall retain and maintain documentation that its staff, including volunteers, possesses adequate training and competence to perform the duties to which they have been assigned.

The job description shall include education, experience, and/or licensing/certification criteria, a description of duties and responsibilities, hours of work, salary range and/or stipend allowance, and performance evaluation criteria. If hiring staff for this grant project, the Applicant shall obtain written documentation of work experience and personal references.

The Applicant shall maintain an individual personnel file for any project staff member, which will contain the application for employment, references, applicable credentials/certifications, and documentation of all training received, notation of any allegations of professional or other misconduct, Applicant's action with respect to the allegations, and the date and reason if terminated from employment or the grant program. All of these personnel materials shall be made available to the Grants Monitor upon request.

The Applicant shall ensure that all employees, volunteers, consultants and sub-contractors have been cleared through the Child Protection Registry and the Police Department of the jurisdiction(s) in which the staff member or volunteer resided during the five years prior to employment under this grant, as well as cleared through the District of Columbia Metropolitan Police Department, and the jurisdiction in which they will be providing services.

Training

The Applicant will be responsible for ensuring staff training and development are, at minimum, in compliance with licensure regulations and CFSA guidelines. The Applicant shall ensure training to program staff and volunteers including, but not limited to: relevant child welfare topics; child abuse and neglect prevention; the provision of community-based services; child development; topics relevant to engaging non-custodial fathers, engaging parents, family-centered services, conflict resolution and parent-child interaction; confidentiality and HIPAA compliance.

Performance Standards and Quality Assurance

The Applicant shall monitor and evaluate all program activities. At a minimum, a semi-annual program evaluation shall include a review of the appropriateness, quality and timeliness of each service, as well as achievement of program objectives.

The Applicant shall be responsible for specific documentation of services provided to parents and families, and updates on both progress, as well as any issues which may arise. The Applicant shall involve the participants in the development of project evaluations. When feasible, grant activities shall reflect concerns and suggestions offered by the program participants.

Monitoring

CFSA shall monitor and evaluate the performance of the Applicant according to the scope of work and related service delivery standards set forth in the Grant Agreement. The Grant Monitor or her designee will make periodic scheduled meetings with the Applicant to discuss the scope of work in relation to the services rendered to the target populations, and the relative success thereof.

Successful Applicants shall participate in CFSA-sponsored activities including, but not limited to, grant entry and exit conferences, and regular site visits. In addition, Grantees shall regularly present to CFSA and community groups on the specifics of their funded programs, including the status of services provided and outreach to increase client participation.

Evaluation

Applicants shall provide a narrative addressing how the conduct of the project and the results of the project will be evaluated over the five year period. Grantees will regularly update their Grant Monitor about ongoing evaluation activities and findings in required progress reporting. Successful Applicants shall participate fully in any CFSA-initiated or required program evaluations. In each subsequent year, an evaluation of all services provided under the grant agreement during the previous fiscal year shall be completed. Prior to the annual evaluation, CFSA and the Grantee shall jointly define the terms of the evaluation. This evaluation will continue in succeeding periods under the terms of the grant agreement.
